

Announcement

The document **Application for referral to the United States Attorney** is important since, if the application is accepted, it becomes possible to file a criminal lawsuit against Louis S. Mastriani after August 13, 2004.

The document was originally public and therefore the presentation of it here, on this website, uncontroversial. Since then AM&S (Adduci, Mastriani and Schaumberg) has however demanded that the document should be made confidential (sealed). Therefore it has become necessary to withdraw the document here.
